

ACCESSORIES

Flower & basket not included

Specifications and Features:

Construction

The Flower/Plant Hanger is welded or threads into a mounting plate or a post clamp. All welding is per ANSI/AWS D1.2-90. All welders are certified per ANSI/AWS D1.2-90 Section 5.

Materials

The end caps and clamp-ons are copper-free cast aluminum produced from certified ASTM ingot. The hanger and mounting plate are aluminum, ASTM 6061, heat treated to a T6 temper. All hardware is stainless steel.

Installation

Pemco's Flower/Plant Hangers are round extruded schedule 80 aluminum pipe with removable cast aluminum end cap. The bolt-on hanger bolts to a mounting channel on the side of the post with four stainless steel screws. The clamp-on mountings clamp around the post, secured with two 1/4" hex head stainless steel bolts. (Post diameter at mounting point must be specified.) Clamp mounts feature the same basic coupling for 4" and 5", and are also available in a custom size for larger poles.

Each Flower/Plant Hanger includes one eyebolt. Hangers are not designed for pedestrian interference.

Dimensions

Flower/Plant Hangers are available in 3/4" SCH 80 Pipe (1.05 OD). Standard length is 24". Custom lengths are available (must be specified at time of order).

Finish

Super durable polyester powder coat finish. Custom finishes available, including patinas and all RAL colors.

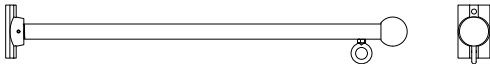

Warranty

5 year limited warranty
