LIGHTING PRODUCTS
A QSSI COMPANY

The Company

About Pemco Lighting

Over 100 Years of Experience

Pemco Lighting Products, a QSSI company, specializes in custom fabrication, machining, and finishing for many industries. We serve the lighting, electronics, medical, and electronic surveillance industries.

Pemco Lighting Products has been designing and manufacturing high-quality lighting fixtures, poles, and accessories for over one hundred and thirty-seven years. The company was first started as "The Philadelphia Electrical Manufacturing Company" - "PEMCO" - in 1882 and for over 100 years was a diverse manufacturer of a broad range of lighting fixtures and poles, for both indoor and outdoor use.

For the past 25 years, products have been redesigned and upgraded to meet today's efficiency, design integrity, and quality standards. Many popular products in the 1920's, '30s, and '40s have been reintroduced with modern lighting sources, superior finishes, and UL/ETL/CSA listing. Old iron castings are now replaced with aluminum, new optical systems have replaced inefficient ones, and we now offer contemporary, traditional, and vintage products.

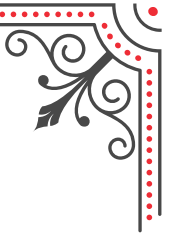

Core Products

Authentic Vintage Designs

With the re-introduction of many traditional and vintage products from the 1920's, '30s, and '40s, Pemco Lighting Products offers one of the largest selections available from one manufacturer.

We offer premium lighting products with authentic vintage designs, including: **post tops, pendants, wall mounts, bollards, banner arms, shepherd's crooks, pole mounts, poles, accessories, etc.**

With one of the largest outdoor lighting selections, we also offer traditional and contemporary outdoor lighting for a wide range of lighting applications.

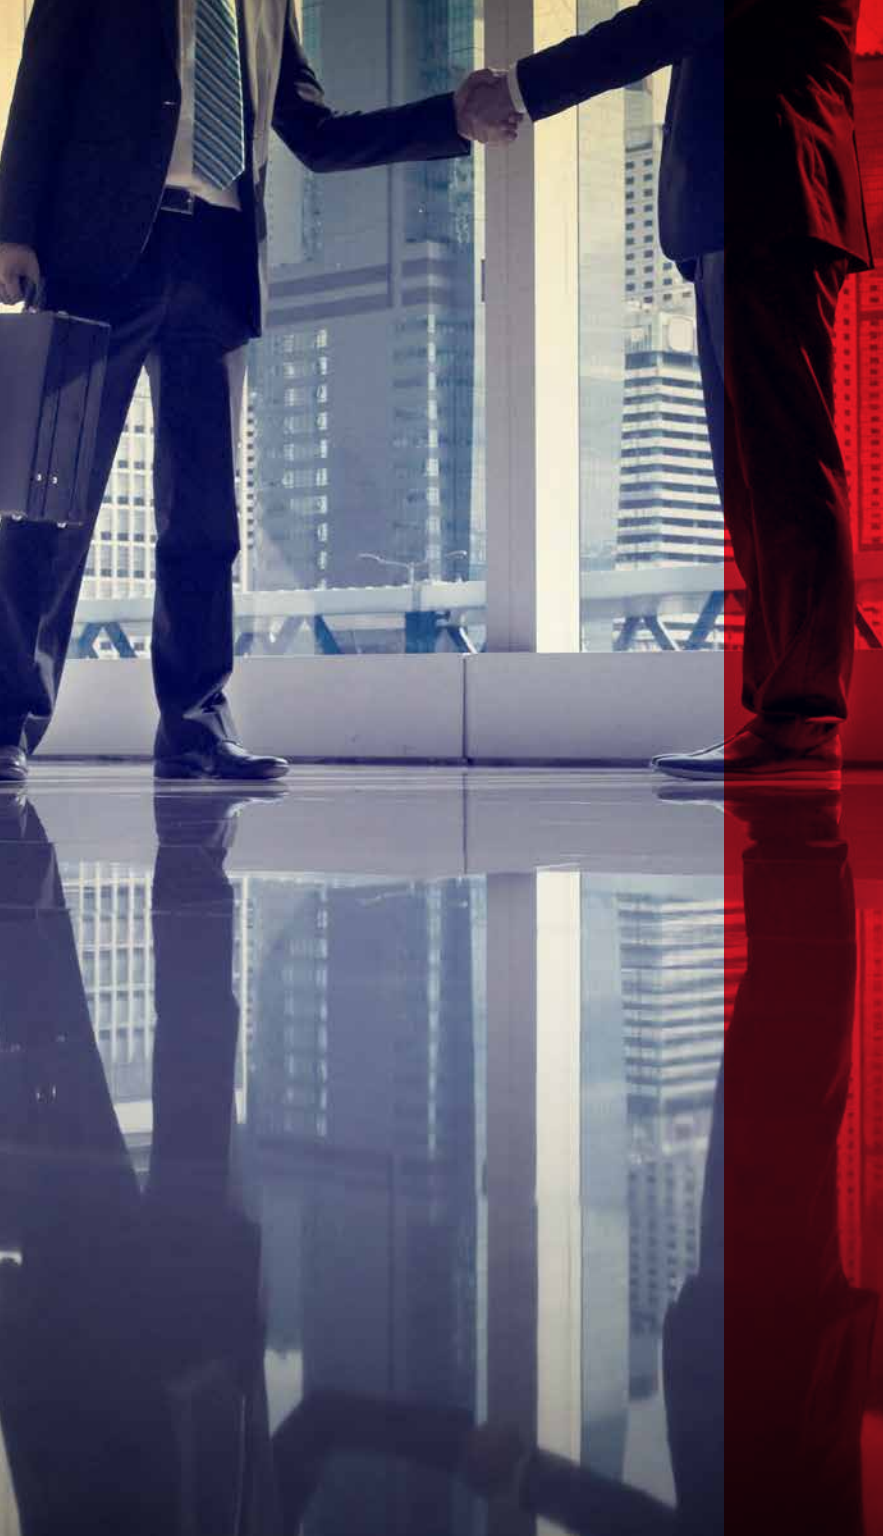

Custom & Modification Work

Premium Customization

Pemco Lighting Products is well known as the go-to manufacturer for premium custom and modification work. We have experienced manufacturing engineers and designers on staff who will work with you to provide design solutions for special/custom projects.

We strive to provide a quality lighting solution for your project with premium manufacturing and unsurpassed customer service.

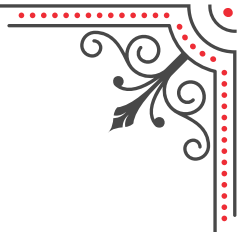

A Strong Partner

Proven Stability and Tenure

In an environment of rapid product innovation, industry consolidation, and company closures, it is important to partner with forward-looking, sustainable companies like Pemco Lighting. We have the tenure and proven stability that sets us apart from other suppliers.

We have our own tooling for our existing product line. In addition, we own our U.L. and CSA certifications and all products comply with these strict standards.

We offer warranty-worthy products with proper thermal management, balanced LED boards to match power supplies, environmentally sealed optics with tested performance, and full safety compliance and testing.

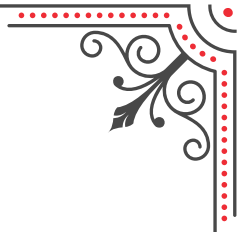

A True Manufacturer

Raw Materials to Finished Goods

Pemco Lighting is a true USA manufacturer with over 140+ years of experience in electrical and lighting products. Our lighting products are manufactured from top-quality raw materials to Finished Goods, which allows us to control the product specifications and quality we provide, a product with years of trouble-free service.

We manufacture all of our own LED luminaires, arrays, and optics. Standard fixtures can be customized to meet customer project requirements. Our skilled production personnel assemble all LED fixtures to the exact configuration required.

Our vertically integrated manufacturing includes: engineering, mechanical and optical design, automated die casting, automated sanding and polishing, stamping and fabrication, powder coating and pretreatment, assembly, SMT LED, thermal and photometric testing.

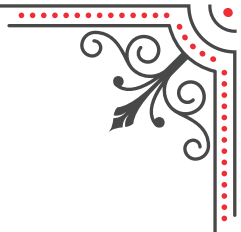

Assembly in the USA

Pemco Lighting Products are made and assembled in America. They are welded, assembled by hand, and built to last. We only manufacture using top-quality materials to provide years of trouble-free service.

Buy American Act

All of our products meet the Buy American Act (BAA) Compliancy requirements as listed in United States Code (USC) Title 41.

Stability

Built for the 'Long Haul'

We have been in business for over 140 years, and we are committed to being here for the “long haul,” providing current and future value to our customers by managing and investing in our manufacturing capabilities and human resources for long-term success.

In addition to controlling the manufacturing of our products, our U.S. facilities provide customers with:

- Full assembly and fixture customization
- A large level of inventory in all locations
- Quick-Ship available for select products
